

Technical Specifications Sheet

U.N. Approved

220 Liter Drum - Open Top [with removable top]

Product Code: HDPE-AYPF-OT-55

Item	HMHDPE - Drum, Open Top, 220L Capacity
Material	High Molecular High Density Polyethylene (PE-HD).
Capacity (Nominal)	220 Liters
Capacity (Brimful)	230 Liters +/- 1%
<b>Dimensions (mm)</b>	
Height	930 w/cover
Diameter / Width	585
Top Access	475 inner diameter mouth with an edge circumference profile matching heavy duty cover. Cover comes with an embedded EPDM leak-proof gasket. Drum is lock-sealed with a galvanized steel locking ring; lever latch type.
Tare Weight (Kg)	8.5 +/- 3% drum w/out cover 10.8 +/- 3% whole unit
External Rigidity	Heavy duty uniform design of drum allows for rigidity in filling, dispensing, loading and transportation operations.

Raw Material Features

High density polyethylene comes with a natural molecular strength and is highly resistant to most acids, oils, fuels, lubricants, corrosive powders and more; making it an ideal solution for many industries to fill and move liquid and solid products.

Colors

Body: Blue (other colors available)  
Top: Black
